CSC 3222: Web Technologies

CO1.1 and CO2.1 Evaluation

Project Report

Fall 21-22

Project Title: **University Portal System**

Section: **J**

Student Name	Student Id
Jarin Tasnim	19-39394-1
Khalak Bin Khair	18-38697-3
Shadman Shakib Aditto	18-38937-3
Rubab Zaman Anika	18-38860-3

University Portal System

Introduction:

University portal provides an engaging student experience with a single point of access and hub to all applications, information, note and content. Often it can be seen that students are struggling with their studies to find notes & also struggle to find information about university to help them out. For that reason, we want to develop this site where student, Parent can find their accessories and also the information easily & faculty can also find the information about the student and can provide the important accessories.

Background Study:

Reference site: <https://www.aiub.edu/>

We studied and observed. American International University Bangladesh (AIUB) website and got the idea. We think it will be the great task to implement as a learner in Web Technologies. However, as we are four in member so we decided to do individual and make 4 different users They are Admin, Student, Parent, Faculty respectively. Each user makes 12 features severally. During create these features we use File system, Cookie, Session, Html, Validation, File upload system etc. After that, we follow layer architecture to understand the functionality. An Index.php file is created to reach the root file automatically by using xampp. Our Aim is to make efficient for every users where they can use all the components what they want. We believe it is the finest example of a university based portal. Also our goal is to develop this system day by day.

Requirement Analysis:

1. User Category:

There are 4-types of Users here. They are:

- **Admin**
- **Student**
- **Parents**
- **Faculty**

2. Feature List:

In this project the “**Admin**” has the following features:

- Manage profile=>where admin can edit their profile
- Add =>Admin can add parents, student, teacher
- Remove=> Admin can remove parents, student, teacher
- Application=>admin can check application and approve or reject it.
- academic calendar=> admin can Control academic calendar
- student schedule => admin can Control student schedule
- teacher schedule => admin can Control teacher schedule
- add notice=> admin can add notice
- Admin can an add admission info

University Portal System

- Admin can edit student profile
- Admin can edit teacher profile
- Admin can control students CGPA

In this project the “**Student**” has the following features:

- Academic Calendar =>Student can show Academic Calendar
- Class Schedule =>Student can show class schedule
- Show Courses and result =>Student can Show his/her result
- Library Info =>Student can show Library information
- Upload Assignment=> Student Can Upload any assignment.
- Show CGPA =>Student Can see his/her CGPA
- Show Teachers biography =>Student Can see Teacher Biography
- Show Students Profile =>Student Can see his profile
- Update Students Profile =>Student Can update his profile
- Show Notification =>Student Can show Notification
- Files Section => Student can Check all the files.
- Application to Admin =>If any changes student can apply admin
- Send Message to Faculty =>Student can send message to the faculty.

In this project the “**Parents**” has the following features:

- Parents can Registration
- Parents can view students Profile
- Parents can show students results
- Parents can Consult with faculty about student
- Parents can manipulate their own profile information like Edit,delete and view
- Parents can Notify admin about their registration
- Parents can view student’s assignments due dates
- parents can search faculty's information
- Parents can view Payment history
- parents can generate pdf of payment history
- Parents can view faculty information
- Parents can view student’s attendance

In this project the “**Faculty**” has the following features:

- Class schedule =>Teacher can check his/her schedule/class timing.
- Student details =>Teacher can see his/her student’s details for each section.
- Appointed class =>Teacher can check his/her appointed class list.
- Provide notice =>Teacher can provide notice for his/her class (per section.).
- Update or remove notice =>Teacher can remove update existing notice.
- Provide grade =>Teacher can provide grade for per section students.
- Upload class notes =>Teacher can upload class notes for each section.
- Update class notes =>Teacher can update his/her class notes.
- Application=>Teacher can send application to higher authority.
- Application status =>Teacher can check application status whenever approved or not.
- Salary details =>Teacher can see his/her own salary details.
- Account details =>Teacher can see his/her account details.

University Portal System

Application

Dear Sir/Mam, I am Ben Brown, an incoming freshman, and I'm very much looking forward to attending University College this fall. My family has, unfortunately, experienced an extreme setback in our financial situation. Just a day after receiving my award information, my father lost his job. After 30 years at The Widget Factory he was unexpectedly let go. He is our family's main income provider. My mother remains employed, but she works part-time at a minimum wage retail job. Consequently, we are suddenly unable to provide the additional funds I'll need for outstanding tuition, books, and expenses. So I need financial aid package.	<input type="button" value="Accept"/> <input type="button" value="Reject"/>
Dear Sir/Mam, I am mina, I want to declare my major software engineer. Id:12-444-2	<input type="button" value="Accept"/> <input type="button" value="Reject"/>

URGENT: BRN Submission for COVID-19 Vaccine (All students, including freshmen)

As per the USCG letter, AIUB students who have not registered for COVID-19 vaccination due to unavailability of their National Identification Number (NID) number are requested to submit their Birth Registration Number (BRN) in the following form by Tuesday, September 21, 1:00 PM, so that we can send to the USCG online.

Form Link: <https://forms.office.com/757FADSLK0V>

General Instructions and policies of Online Classes (MS Teams) 'Effective from 20 March 2020'

1. Join the virtual classroom on time (as per the class routine). Look for your specific class under the teams in MS Teams and click join.
2. Students' speakers will be enabled, but microphone and camera will be disabled. If any student needs to make a query, click 'raise hand' or post a text message in the chat window, if required, the teacher may ask you to unmute the microphone or switch on camera as appropriate.
3. Stay in real time video presence. Teachers will collect the attendance report automatically. The report contains name, join time, and leave time of all participants.
4. Be presentably attired for the class. Teacher may ask you to switch on your camera.
5. Sit on a table and straight seat.
6. Keep the room quiet.
7. Be prepared and fresh for the class. Avoid leaving the class in the middle.
8. Do not engage into other communications (conversation, phone call or sms) during the class.
9. Avoid having food during the class time.
10. Use headphones/ earphone and microphone for better performance.
11. Teachers may record the lecture for future reference. Students are not allowed to record any part of the lecture by any means.

Subject: Application for the Post of {Software Developer}

Dear Mr./Ms./Mrs. {Recipient's Name},

This is regarding your post on {Portal} about a vacancy in your company for the role of Software Developer. Please accept my application for the same.

Here is a brief about myself. I have completed B.Tech in Computer Science from {Institute Name}. I secured {Marks/Grade} in my final exams and passed with {distinction/Percentage}.

During my studies, I participated in various tech fests and also won a gold medal for creating an app from scratch in an inter-university tech competition.

I am confident that I have the skills to excel at your dynamic organisation. I have always dreamed of being a part of your company due to the development opportunities you provide. I request you to give me an opportunity to learn and grow at your esteemed firm through this job role.

Please refer to my resume and cover letter, attached with the email, for detailed information.

Thank You.

Yours sincerely,

103	Shadman	1st Semister :40,000	2nd Semister :60,000	3rd Semister :60,000	Done
102	Shakib	1st Semister :40,000	2nd Semister :60,000	3rd Semister :60,000	Duo
104	Aditto	1st Semister :40,000	2nd Semister :60,000	3rd Semister :60,000	Done
166	Adi	1st Semister :40,000	2nd Semister :60,000	3rd Semister :60,000	Duo
109	Test	1st Semister :40,000	2nd Semister :60,000	3rd Semister :60,000	Done

Impact of this Project:

This project aims to create an easy, faster and smooth communication system between the teachers ,the students and Parents. Often it can be seen that students are struggling with their studies to fine notes & also struggle to find information about university to help them out. Also teachers can easily provide the important accessories and find the information about the students. And parents will be able to take care of whether the son or daughter study Our site will benefit for them.

Limitations and Possible Future Improvements:

University Portal System

Communication system is always a changeable system. It develops day by day, getting better and better. Today what's look good is tomorrow becomes old. So we have to update it time to time. Now our site has only text messaging option to its user but we will start the voice messaging etc in the future.
